BUSINESS OF THE WEEK

Dean Carpenter has run Houston Landscapes Unlimited for 29 years.

Landscaper knows all about growth

Houston Landscapes Unlimited is now approaching its 30th anniversary, and founder Dean Carpenter is not in a hurry to quit any time soon. Although Carpenter started the business on his own, it has grown exponentially. He hired a full-time staff and built a massive office complex to house his operation. Recently, Reliant Stadium, home of the Houston Texans, awarded Carpenter's company with its landscape irrigation contract.

WHAT YOU'LL FIND: Houston Landscapes Unlimited has four major divisions: landscape installation, landscape maintenance, irrigation installation and irrigation repair. Houston Landscapes serves both residential and commercial clients.

WHAT THEY'RE SAYING: "When you take a piece of raw land, and you create something from nothing, it's really a good satisfaction, a feeling that you've accomplished something. But it's also a great satisfaction when you go back and look at it 10, 20 or 30 years after it's been maturing and growing." — Dean Carpenter, president and CEO
